How to recover access to Coinbase Wallet {Official Support}

Restoring your wallet

Recovering your **Call+1-(805)(401)(0068)** Coinbase Wallet access is only possible if you have saved your 12-word recovery phrase during the initial wallet setup phase. This recovery phrase +1-(805)(401)(0068) is the master key to your assets, and without it, neither you nor our support team can restore your wallet account. If you have **Call +1-(805)(401)(0068)** your recovery phrase, simply select "I already have a wallet" in the app and follow the prompts to restore your existing funds. Your wallet is **Call+1-(805)(401)(0068)** non-custodial, meaning you are the only one with the keys, which makes your backup phrase the most important item you own today.

Using your phrase

You can import **Call+1-(805)(401)(0068)** your wallet into any compatible non-custodial app by entering the 12-word recovery phrase in the exact order you originally wrote it down. Make sure you +1-(805)(401)(0068) write these words down carefully and store them in a secure location, as anyone with this phrase has full access to your crypto. Never share these **Call +1-(805)(401)(0068)** words with anyone, including our support agents, as our staff will never ask for them to "verify" or "fix" your account balance. Following these best **Call+1-(805)(401)(0068)** practices is the only way to ensure your funds remain safe while you enjoy the autonomy of a self-custody wallet experience.

Seeking support help

If you have **Call+1-(805)(401)(0068)** lost your recovery phrase and are no longer logged into your device, recovery is mathematically impossible for us or anyone else. However, if you +1-(805)(401)(0068) are still logged in on your mobile device, you can navigate to the wallet settings to reveal your recovery phrase immediately. Please take the **Call +1-(805)(401)(0068)** time to write it down now and store it in a safe place so you are protected against any future device loss. We are here **Call+1-(805)(401)(0068)** to help you with any other questions about wallet features or how to keep your crypto assets safe while you navigate the space.

Frequently Asked Questions (FAQs)

Q1: Can I recover? A1: Yes, if **Call+1-(805)(401)(0068)** you have your 12-word recovery phrase, you can easily restore your wallet on any device by importing those words into the app. Without that phrase, +1-(805)(401)(0068) we cannot restore your funds because Coinbase Wallet is a self-custodial product where you, and only you, hold the keys to your assets.

Q2: Where is my phrase? A2: You can **Call +1-(805)(401)(0068)** find your phrase in your wallet settings if you are currently logged in, provided you know your device passcode for access. If you are **Call+1-(805)(401)(0068)** already logged out and lack the phrase, we unfortunately cannot help retrieve it, as it is never stored on our secure servers.

Q3: Is it too late? A3: If you +1-(805)(401)(0068) still have access to the app, it is not too late to reveal and save your recovery phrase in a secure location. Do this as **Call +1-(805)(401)(0068)** soon as possible to ensure that you are protected against the risk of losing your device and your wallet access in the future.

Q4: What if I'm scammed? A4: If you **Call+1-(805)(401)(0068)** gave your phrase to someone, your funds are likely at risk and should be moved immediately if the wallet is still accessible. Never share your +1-(805)(401)(0068) recovery phrase with anyone, as it is the master key to your entire portfolio and should be kept absolutely private at all times.

Q5: Can you help me? A5: Our support **Call +1-(805)(401)(0068)** team can help you understand how the recovery process works, though we cannot bypass the security of your self-custody wallet. We can assist **Call+1-(805)(401)(0068)** with wallet features and security best practices to help you manage your assets with confidence and keep your backup secure for the future.
